

Customize Your Guest Telephones with a Touch of Colour

You've been seeing the new TeleMatrix colour inserts in advertisements, and as you might suppose, they are very popular! Imagine not only your choice of stylish telephone designs to complement the new directions in technology styling in your rooms, but now you can easily add that distinctive colour cradle that perfectly coordinates with your colour scheme.

Colour inserts are optional on the 9600* DECT Cordless Series.

Seven (7) colour options provide a range of modern accents that makes matching your rooms' décor a snap. Premium custom-colours are also available.†

Cordless Telephones from TeleMatrix

The Marquis 9600* DECT Cordless Series with multiple handsets represent the new cordless generation from TeleMatrix. DECT (Digitally Enhanced Cordless Telecommunications) is an established global standard, now being adopted in the USA.

This new, clear-channel technology, coupled with TeleMatrix's dynamic telephone designs, is revolutionizing the hotel cordless world.

The TeleMatrix Cordless Series is about to change the way you think about telephones. Designed from inception to be the undisputed next generation guest room telephones, the Cordless Series comes in your choice of black or ash, with a stunning custom designer option of 7 colour inserts† (see back cover).
